

CHINESE ASTRONOMY AND ASTROPHYSICS

VOLUME 15 (1991)

SUBJECT INDEX

- Physical Processes. Jets. Active Galactic Nuclei.**
 A phenomenological analysis of the spectral bimodality in
 the GPO object GX 5-1 / YOU Jun-han, LU Tan, FENG Long-long
 and YAN Ming 37
- Physical mechanisms for the bipolar jets around young stellar
 objects and their knotty structure / YUE Zeng-yuan and
 G. Winnewisser (Express Research Report) 78
- Observational study of jets in extragalactic objects. I.
 A rapid brightening in the core of 3C 120 / SUN Kai,
 ZHANG Wen-yuan and LI Zhi-ping 83
- Observational studies of jets in extragalactic objects. II.
 Three extensions / SUN Kai, LI Zhi-ping and ZHANG Wen-yuan 90
- A study of cosmic ray re-acceleration in the interstellar
 space / ZHANG Li and YU Chuan-zan 353
- On the structure of thin magnetized accretion disks of active
 galactic nuclei and their coronal radiation / YANG Lan-tian,
 WU Xue-bin and YANG Pi-bo 386
- Observational and Theoretical Cosmology**
 Large-scale peculiar velocities of galaxies / XIANG Shou-ping,
 CHENG Fu-zhen and LIU Jian-min 121
- Five dimensional Bianchi-V type perfect fluid cosmological
 models / WANG Xing-xiang 234
- The momentum of scalar field and the wave function of the
 universe / FAN Zu-hui and YU Yun-qiang 241
- A new diagram for illustrating the horizon problem /
 T. Kiang (Abstract) 480
- Black Holes**
 Can black-hole entropy be quantized ? / WANG Ding-xiong 164
- Radio Galaxies**
 A radio study of the Abell cluster A 514 / ZHAO Ren-yang,
 J. Bagchi and P. K. Manoharan 46
- Clusters of Galaxies**
 The radial velocity membership of the Virgo Cluster /
 ZHAO Jun-liang, PAN Rong-shi, HUANG Song-nan and
 HE Yan-ping 95
- Galaxies**
 Objective prism survey of emission-line galaxies. IV. /
 HUANG Yong-wei, LIU Ji-ying and FENG Xing-chun 131
- Some properties of the SN 1987 A pulsar / ZHAO Yong-heng,
 LU Tan and LU Jian-long 191

- Galactic gamma-ray sources in the 40-50 MeV range /
LI Ti-pei and WU Mei 227
- Cosmic ray and hydrogen distributions and cosmic gamma-rays /
ZHOU Da-zhuang and K. K. Tang 416
- Polarization observations of four southern pulsars at
1560 MHz/ WU Xin-ji, R. N. Manchester and A. G. Lyne 423
- Galactic Structure
- CO and HI emissivities at subcentral points and spiral arms /
XIANG De-lin (Abstract) 240
- Two-dimensional Milky Way spiral arm contrasts /
XIANG De-lin (Abstract) 364
- Nebulae
- Compact reflection nebulae associated with protoplanetary
nebulae / HU Jing-yao and TANG Qing-quan 65
- The disappearance of eclipses in the central star of the
planetary nebula NGC 2346 /HAO Xiang-liang 431
- Masers. Molecular Clouds
- Evolution of the double peak spectrum of the OH-1612 MHz maser
on the asymptotic giant branch / SUN Jin, ZHANG Guo-jin
and FANG Geng 197
- Far infrared characteristics of water maser associated IRAS
point sources / ZHOU Zhen-pu and HE Li-da 207
- OH masers in W33B / ZHENG Xing-wu 219
- Near-infrared observations and analyses of molecular outflows /
SUN Jin, WU Yue-fang, MAO Xin-jie and LI Shou-shong 375
- Star Clusters
- Studies on the Coma cluster. III. The virial mass and
kinematics / ZHAO Jun-liang, HUANG Song-nian,
PAN Rong-shi and HE Yan-ping 260
- Compactness of globular cluster and its evolution /
ZHANG Mei and MA Er 251
- Stars
- Low-dispersion spectra of ten Me stars / Feng Xing-chun,
Huang Yong-wei and LIU Ji-ying 72
- An infrared study of M-type giants /CHEN Pei-sheng, GAO Heng,
DONG Hong-wei and CHEN Yan-kang 150
- A stellar wind dynamic model for S106 / JIANG Dong-rong and
FU Cheng-qi 178
- IRAS 19213+1723: a new compact H II region / QIAN Zhong-yu,
HU Jing-yao and JIANG Bi-wei 231
- Binaries
- A photoelectric photometric study of the eclipsing binary
DF Hydrae / LIU Qing-yao, YANG Yu-lan, ZHANG Yun-lin,
WANG Bi and ZHANG Zhou-sheng 12

- The contact binary system AH Tauri / *LIU Qing-yao, YANG Yu-lan, ZHANG Yun-lin and WANG Bi* 143
- A Roche model solution of the eclipsing binary WX Cancr / *LU Wen-xian, WANG You-ru and WANG Xiu-mei* 214
- Photoelectric observations of lunar occultations of six binaries in Pleiades / *QIAN Bo-chen and FAN Qing-yuan* 336
- Infrared Astronomy**
- A search for infrared stellar objects in a region in Carina / *XIAO Zhen and LI Jing* 270
- Early-type emission-line stars with large infrared excesses / *DONG Yi-sun and HU Jing-yao* 275
- Infrared observational study of MS and CS stars / *CHEN Pei-sheng, GAO Heng, BAO Chu-xian and CHEN Yan-kang* 345
- Near infrared photometry and analysis of OH masers stars of different types / *SUN Jin, FANG Geng and WEI Han* 306
- The non-synchronous systems among RS CVn stars / *TAN Hui-song, WANG Xun-hao and PAN Kai-ke* 461
- Solar Observations. Solar-Terrestrial Relations**
- Two-dimensional power spectrum of small-scale magnetic fields on the quiet sun / *WANG Jing-xiu, SHI Zhong-xian and LIU Jian-qiang* (Abstract) 239
- On the determination of the transverse magnetic field and current in the photosphere / *WU Lin-xiang and AI Guo-xiang* (Abstract) 240
- Spectral analysis of solar radio Type III burst groups / *M. Pick, A. Mangeney and ZHAO Ren-yang* 298
- Statistical properties of solar gamma-ray flares / *Xu Ao-ao, YIN Chun-lin, ZHANG He-qi and S. T. Wu* 318
- Solar flare and sudden change of Earth's rotation / *FENG Bo* 329
- Fast fine structure in solar radio bursts at 3 cm waves / *QIN Zhi-hai, JIANG Shu-ying, WEI Shuang-lin and CHEN Yun-xia* (Fast Research Report) 362
- Some statistical features of solar radio SVC in the rising branch of Cycle 22 / *ZHANG Bai-rong and MA Yuan* 449
- Solar Physics**
- Solar atmospheric responses to magnetic flux eruptions. I. A mechanism for coronal mass ejections / *HU You-qiu and ZHANG Hui-nan* 284
- Solar atmospheric responses to magnetic flux eruptions. II. Slow shocks near the Sun / *HU You-qiu and Zhang Hui-nan* 292
- A semi-empirical model of sunspot umbra / *DING Ming-de and FANG Cheng* 28
- Vertical motion of dark filaments and occurrence of flares / *XU Ao-ao and WU Gui-ping* 103

| | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Stability of force-free fields / HU You-qiu | 169 |
| Closed loop model of turbulent acceleration for the gradual phase of the radio burst of 1981 April 27 / YAO Jin-xing | 408 |
| MHD oscillations in the solar spike radiation / ZHAO Ren-yang, JIN Sheng-shen, FU Qi-jun and LI Xiao-cong | 439 |
| An explanation of the dimensions of penumbral filaments / ZHOU Dao-qi | 453 |
| Two-dimensional MHD equilibria in the solar corona / WANG Shui, S. T. Wu and A. H. Wang | 470 |
| Planets and Satellites | |
| On the gas dynamics of the volcanic plumes on Io / ZHANG Bin | 157 |
| Comets and Meteors | |
| Visual observations of eta aquarids / FENG Zhan-liang and XU Pin-xin | 50 |
| Celestial Mechanics | |
| Numerical research on the Sitnikov problem / LIU Jie, ZHOU Ji-lin and SUN Yi-sui | 339 |
| The orbital resonance among the Galilean satellites I, II and III of Jupiter / ZHAO Chang-yin and LIU Lin | 366 |
| The influence of the orbital eccentricity of a primary on the chaotic region / LIU Jie | 446 |
| Fundamental Astronomy. Astrometry | |
| Determination of 1988 earth rotation parameters from optical astrometry data / LIAO De-chun and JIN Wen-jing | 1 |
| Optical positions of radio stars and radio sources / XU Tong-qi, LU Pei-zhen, WANG Shu-he and CHU Zong-yuan | 19 |
| Chandler wobble and annual polar motion from 1965.0 to 1985.0 / GAO Bu-xi | 111 |
| J2000.0 positions and proper motions of 257 stars in the central part of the Praesepe astrometric standard region / WANG Jia-ji and JIANG Pei-fang | 397 |
| Instrumentation | |
| An astrometric test of the Shanghai 1.5 m R-C reflector / MAO Ya-qing | 56 |
| A new double passband mode for a birefringent filter used for solar vector video magnetographs and video dopplergraphs / AI Guo-xiang, R.J. Fear and JI Pei-wen (Abstract) | 239 |
| Correction for refraction in radio astronomy and satellite geodesy / T. A. Th. Spoelstra and YANG Yi-pei (Abstract) | 239 |
| Interference rejection in Miyun Synthesis Radio Telescope / YANG Yi-pei, ZHENG Yi-jia et al. (Abstract) | 364 |
| Editorial | 365 |
